

PRABIN ACHARYA

IT Support Technician | Microsoft 365 & Cloud Support | AV Technician

437-269-9844 | prabinacharya55@gmail.com | [LinkedIn](#) | pacharya59.github.io/prabinacharya | Toronto, ON

PROFESSIONAL SUMMARY

Certified IT Support Technician with nearly 2 years of hands-on experience in technical support, system administration, and network infrastructure. Seneca Polytechnic honours graduate with a 3.9 GPA in Computer Systems Technician, recognized on the President's Honours List for four consecutive terms. Specialized in Windows Server, Active Directory, Microsoft 365, and cloud platforms including Azure and AWS. Experienced in endpoint management via Microsoft Intune, user migrations to Microsoft Entra ID, and OneDrive data backup and restore. Holds CompTIA A+ certification; pursuing CCNA and AZ-104.

WORK EXPERIENCE

Wincon Security

Toronto, ON

Customer Service Representative

Jan 2025 – Present

- Attended weekly operational meetings with the Operations Manager and senior staff, providing updates on incidents, trends, and team performance.
- Handled inbound phone calls from residents and contractors, resolving inquiries and complaints professionally and efficiently.
- Created and submitted detailed incident reports using the Officer App, ensuring accurate documentation of all security-related events in a timely manner.
- Utilized Condo Control to log incident reports, post announcements, and communicate updates to residents and management.
- Served as a direct communication bridge between the operations manager and the security team, relaying instructions, updates, and escalations clearly and accurately.
- Awarded Champion of the Month for exceptional service quality, professionalism, and consistent performance.

Seneca Polytechnic

North York, ON

IT Technical Support & Hyflex Ambassador

Dec 2024 – Dec 2025

- Delivered Tier 1 and Tier 2 hardware and software support to 30+ faculty members weekly, ensuring SLA compliance and prompt incident resolution across 4 campuses.
- Managed AV systems (Crestron, projectors, digital displays) across 4 campuses, maintaining 100% uptime for uninterrupted classroom operations.
- Reimaged and deployed 200+ Windows 10/11 workstations using PXE boot; installed and configured software packages via AppsAnywhere and Cloudpaging Player to minimize downtime.
- Managed device enrollment, compliance policies, and security configurations through Microsoft Intune (MDM); handled employee onboarding and offboarding via Microsoft 365 — provisioning and deprovisioning accounts, configuring email access, assigning licenses, and managing group memberships in Azure AD.
- Guided users through SSPR workflows, account activations, and VPN access (GlobalProtect); troubleshoot LAN/WAN, DNS, DHCP, and printer issues, maintaining 99% network infrastructure uptime.
- Utilized ServiceNow ITSM for incident tracking, escalation workflows, and documentation in alignment with ITIL best practices.

Seneca Polytechnic

North York, ON

IT Service Desk Representative — Technical Support Co-op

Aug 2024 – Dec 2024

- Managed user accounts in Active Directory and Azure AD (Microsoft Entra ID), including password resets, MFA credential resets, and group policy assignments, ensuring secure access for students and faculty.
- Resolved 250+ equipment and software requests monthly with a strong first-call resolution rate, improving overall user satisfaction.
- Handled 100+ weekly incident requests via Salesforce CRM and Five9 VoIP, adhering to ITIL workflows for escalation, SLA tracking, and documentation.
- Escalated unresolved technical issues to Tier 2/3 support with detailed diagnostic notes, enabling faster resolution and reducing repeat contacts.
- Onboarded and offboarded student and faculty devices through WebCheckout; maintained accurate hardware inventory and asset lifecycle records.

WorldLink Communications

Kathmandu, Nepal

Technical Support Representative

Jan 2021 – Dec 2021

- Provided first-line ISP help desk support, resolving router configuration and network connectivity issues on first contact for 200+ monthly users.
- Guided non-technical customers through router configurations, DHCP settings, and network troubleshooting, significantly reducing repeat service calls.
- Diagnosed and resolved network performance degradation issues, improving internet reliability for residential and SMB clients.
- Maintained high customer satisfaction through clear communication and effective technical guidance.

EDUCATION

Diploma — Computer Systems Technician

2022 – 2025

Seneca Polytechnic, North York, ON CGPA: 3.9/4.0 | President's Honours List (4.0 GPA)

CERTIFICATIONS

CompTIA A+ | Google IT Support Professional Certificate | AZ-104 (Azure Administrator) — In Progress | CCNA — In Progress

PROJECTS

Azure Multi-Region Web Deployment

Designed and deployed a fault-tolerant website across two Azure regions using Traffic Manager, availability sets for VM redundancy, and Azure Load Balancer for high availability. Demonstrates practical AZ-104 concepts.

Roundcube Mail Server on AWS EC2

Configured a secure, production-grade webmail server on AWS EC2 with Apache, MySQL, and SMTP over HTTPS/TLS. Demonstrates Linux server administration, cloud infrastructure, and network security skills.
